Re: Toxic Substances Control Act (TSCA) Section 6(h)

On January 6, 2021, the U.S. Environmental Protection Agency (EPA) published a final rule for chemicals under the Toxic Substances Control Act (TSCA) Section 6(h). The final rule (docket EPA-HQ-OPPT-2019-0080) went into effect on March 8, 2021. Currently the EPA has listed the following five Chemicals which are known as Persistent Bioaccumulative Toxic substances (PBTs) under the regulation.

- Decabromodiphenyl ether (DecaBDE)
- Phenol, isopropylated phosphate (3:1) (PIP (3:1))
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBD)
- Pentachlorothiophenol (PCTP )

We hereby certify that no PBTs substances as listed above are added in the products from our ArcelorMittal Long Europe premises of:

- ArcelorMittal Belval & Differdange sites of Belval, Differdange and Rodange
- ArcelorMittal Guipuzcoa sites of Bergara and Olaberria
- ArcelorMittal Hunedoara
- ArcelorMittal Poland sites of Dabrowa Gorznicza, Krowleska and Sosnowiec
